TypeScript ReactJS HTML

## CERTIFICATIONS

Scrum Fundamentals  
Certified- SCRUMstudy

EF SET English Certificate  
71/100 (C2 Proficient)

Conversational English

## EXPERIENCE

SOFTWARE ENGINEER

INTERNSHIP - WOLK SOFT

MARCH 2021 - MAY 2021

- I seamlessly integrated the Facebook Marketplace API into a point-of-sale system, resulting in a notable increase in business productivity.
- I thoroughly documented the API usage, providing concise and comprehensive instructions for its setup and operation.
- Implemented an intuitive pre-registration feature on the web store, allowing customers to register before making purchases, using technologies such as .NET Framework, Vue.js, Microsoft SQL Server, Visual Basic, and C#.

SOFTWARE ENGINEER

FREELANCEE

JANUARY. 2024 -

- I implemented reusable and modular components, ensuring clean and easily maintainable code.
- I used Redux to manage the application state, ensuring efficient data handling in the user interface. Additionally, I designed and developed RESTful APIs to facilitate communication between the frontend and backend.
- Database management using MySQL, ensuring efficient storage and management of application data.
- I used Git for code collaboration and application version management, employing technologies such as Java (Spring Boot) and React.js.

## PROJECTS

### ZHENAIR

Cenfotec University

- I developed the medical center administration screen, allowing administrators to efficiently manage information.
- I created functions that enable users to manage their profiles.
- Implemented an interactive map displaying real-time information about air quality in different locations. Technologies used: AngularJS, Java (Spring Boot), MySQL.
